Subject:FW: Posting the disclaimer -- Follow up from August 5th Scientific Integrity
Panel

Sensitivity: Confidential

Hi Martha:

Please see the email immediately below. The link to the report that you sent me will be deactivated once the document is pulled from Region 3's website. As you'll see below, the official electronic residence for the report is on a HQ weblink that evidently cannot be modified by Region 3. It would seem then that someone in HQ will have to attach the disclaimer.

Please let me know if there is something else I can do.

Thanks.

John
